

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# SOMETHING TO READ

Selected by HARRIET H. STANLEY

---

## TO THE BOY AND GIRL READERS OF BROOKLINE

This is a list of some books that we think you will find interesting. It does not include all the books we have for boys and girls, but many of the best ones. Books for very young readers are omitted from this list. Where the name of the author is marked \*, you may know that he has written other good books, though we mention only one. You can tell what the others are by looking under the author's name in the card catalogue at the Library. If you want more books on a particular subject, look for the subject in the card catalogue, or ask some one in the Library to help you. There are different kinds of books, as you know,—stories of athletics, of adventures at sea or among Indians, of exploits in war, books about famous people, books about animals, books on electricity, etc. To know and to like many kinds of reading will add much to your enjoyment; so, if you now like only one or two kinds, we hope this list may tempt you to venture a little beyond your favorites to find new friends.

## STORIES FOR BOYS.

*"Give me leave to enjoy myself."*

- Aldrich.** The story of a bad boy. jA365.6  
Not a very bad boy.
- \*Altsheler.** The young trailers: a story of early Kentucky. jA475.8
